ATIK 30

Atik 30 is a floodlight with SMD LED technology, able to grant excellent luminous efficiency and high CRI. Equipped with 99,8% aluminium reflector with high-reflection treatment and cut-off optical system. The heat sink is composed by inner copper heat-pipes that accelerate the LED module cooling process. This can grant high-brightness, long duration and makes this device perfect for any kind of application. The installation is really easy thanks to its adjustable stainless bracket. The clear front-glass, the incorporated gasket kit and the anti-fog system allow this product to be used both for indoor and outdoor installations. Suitable for the illumination of gardens, parks, statues, bushes, trees, facades, monuments and also cycling lanes and paths.
