Alrai is an LED recessed ceiling luminaire fitted with COB technology and high color rendering. The fixture is adjustable in all directions and is fitted with one light source. The frame is made of white cast aluminium, and upon request is available in gray or black trims. The fastening system allows installation in ceilings of different thickness ranging from 5 to 25 mm. This unit is ideal for illumination in retail shops, shopping centers, residential environments and offices.

The Elite version of Alrai, like the whole Elite series, is produced in Italy and contains premium components such as Italian power supplies with ripple-free technology and a persistence of color temperature with high MacAdam classification.
