Replaceable LED module with high efficiency, long life, heatsink without forced cooling 0 dB, available in two different white temperatures like 3150K and 5600K, high CRI > 95 (rendering color performance index), TLCI > 90 (Television Lighting Consistency Index), manually adjustable zoom from 9° to 57°.

Digital display with function control possibilities and DMX addressing. The control by DMX allows the coordination with any other device, avoiding the use of traditional dimmer and dedicated lines.

It is possible to adjust manually the intensity of the outgoing light by an integrated rotating potentiometer on the spotlight. The dimmer has a soft and linear setting from 0 to 100% without any flickering.
